DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "preliminarily" found in lines 4, 8 and 11 is awkward and confusing. The term "fibers construction" is grammatically incorrect should be changed to "thermoplastic fibrous material".

3. Claim 1 recites the limitations "cut new edges" and "opposite selvage edges". There is insufficient antecedent basis for these limitations in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hyams et al. (US 5,165,113).

Hyams provides a seamless shoulder strap comprising upper and lower elongated strips of fabric creating an internal compartment therebetween (column 1, lines 63-68 through column 2, lines 1-26). An intermediate strip of thermoplastic fiber

construction located between the upper and lower elongated strips of fabric (column 4, lines 67-68 through column 5, lines 1-4). The fabric strips are heat fused together and excess raw edges of the fabric strips are cut off without an inturned seam resulting from the shoulder strap (column 6, lines 18-34).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Silverman (US 3,153,246), Woods (US 4,638,513), Tedeschi et al. (US 5,984,762), Harmsen (US 4,833,732), Artzt (US 3,873,999), Rabinowicz (US 6,192,717), Marley, Jr. (US 6,178,784), Osborne (US 5,946,944), Russo (US 5,586,340), Edelman (US 3,616,148) and Roush et al. (US 5,803,792) are all cited to show closely related garments.
